

Care Sheet for Homemade (knitted or crocheted) Shawls

- Hand wash ONLY in lukewarm water and mild detergent.
- Do not agitate. Gentle 'swishes' only.
- Do not wring dry. Wrap in towel and gently squeeze out excess water.
- Lay flat on a clean surface such as towels, camping mats or carpet.
- If you wish to restore the shape of the shawl, follow these steps below. Otherwise leave the shawl in the shade to dry flat.
- Using pins (sewing pins or T-pins), pin the edges of the shawl. Stretch the shawl as 'open' as possible.
- If the shawl has scalloped edges, pin the tips of these scallops as far from the shawl body as possible.
- Dry flat in shade
